

GUILHERME P.

Senior FullStack Engineer

SUMMARY

Innovative and adaptable Full Stack Developer with extensive experience in developing efficient, scalable, and maintainable software solutions across various technologies and frameworks. With a focus on mastering the fundamentals of software development and problem-solving, I am proficient in languages such as JavaScript, TypeScript, Java, and PHP, and have expertise in frameworks like Node.js, Angular, React, and Spring Boot. I have a strong track record of delivering high-quality applications, building both frontend and backend systems, and leading teams to success. My goal is to create impactful software that enhances functionality and user experience, regardless of the technology stack used.

EDUCATION

Instituto Federal de Educação, Ciência e Tecnologia de São Paulo (IFSP)

SKILLS

Programming Languages and Technologies **Java, JavaScript, TypeScript, PHP**

Frameworks and Libraries **Node.js, NestJS, Express Angular, React, Spring Boot, Symfony, RxJS**

Cloud Platforms and tools **AWS, Docker.**

Databases **MongoDB, MySQL**

Others **RabbitMQ, Redis, Webpack, Jira, Confluence, WebSocket, Gitlab, Github**

Languages **English: Fluent
Portuguese: Native**

EXPERIENCE

STARBUILDER: SENIOR FULL STACK TECH LEAD | JANUARY 2025 – PRESENT

- Lead the development of financial solutions for Bradesco bank using Java (Spring), Node.js (Express), and Angular.
- Focused on full-stack development, managing a team, and polishing new features to meet client expectations.

Technologies: Java (Spring), Node.js, Angular.

ALMA VIVA SOLUTIONS: MID-LEVEL ANALYST AND DEVELOPER | APRIL 2023 – JANUARY 2025

- Developed frontend and backend for the Police Inquiry System of the São Paulo State Police Department.

Systems Analysis and
Development | 2016 - 2020

MBA USP/Esalq
LATO SENSU POST-GRADUATE –
MBA, DATA SCIENCE AND ANALYTICS
| 2021 - 2022

CERTIFICATIONS & COURSES

- Veduca: Technical Course
in Project Management |
2017

- Worked extensively with Java (Spring Boot) for backend services and Angular for frontend development, ensuring robust and scalable solutions.

Technologies: Java (Spring Boot), Angular, Redis, RabbitMQ, WebSocket, PostgreSQL.

MTCORP SOLUÇÕES TECNOLÓGICAS: MID-LEVEL ANALYST AND DEVELOPER / MARCH 2021 – MARCH 2023

- Developed web applications using Angular and React for frontend and Node.js (Nest framework) for backend with NOSQL database management (Prisma ORM and MongoDB). Also developed backend APIs using PHP and Symfony with Doctrine ORM and Postgres database.

Technologies: Angular, React, Node.js, Express, Prisma, MongoDB, PHP, Symfony, Doctrine, PostgreSQL.

NETICOM BRASIL - COMUNICAÇÃO COLABORATIVA: WEB DEVELOPER | JUNE 2018 – JANUARY 2021

- Developed both frontend and backend web applications using PHP, JavaScript, HTML, CSS, JQuery, and Bootstrap. Gained expertise in CMS platforms such as WordPress, Joomla, and GetSimple, and managed MySQL databases. Worked on digital marketing and technical support tasks.

Technologies: PHP, Javascript, JQuery, AJAX, HTML, CSS, jQuery, Bootstrap, CMS, WordPress, Joomla, GetSimple, MySQL, PHPMyAdmin.

MASTER PLAN GESTÃO E TREINAMENTO EMPRESARIAL LTDA: TECHNICAL SUPPORT INTERN IN IT | DECEMBER 2017 – MAY 2018

- Provided technical support for computer hardware, peripherals, and software, gaining hands-on experience in troubleshooting and IT support.

Technologies: Linux, Windows, general OS and hardware configuration

HYUNDAI MOTOR BRASIL: APPRENTICE | JANUARY 2014 – JANUARY 2015

- Worked in the quality department, utilizing quality control tools and handling administrative tasks such as inventory organization, budgeting, and purchasing materials through SAP

Technologies: SAP software

**SUPRICEL LOGÍSTICA: APPRENTICE | JANUARY 2011
– JANUARY 2012**

- IT Apprentice in the logistic sector with tasks such as hardware and software maintenance

Technologies: Linux, Windows, general OS and hardware configuration
